Managing Project Stakeholders

Muhammad Abdullah Khan

Google Certified Data Analyst | xIntern @Systems Limited |
xIntern @iVolve Technologies | Mobile App Developer | Software
Engineering Student at NUCES FAST.

Rawalpindi, Punjab, Pakistan

Summary

As a Cloud Architect Intern at iVolve Technologies, I contributed to diverse and challenging projects, designing, developing, and deploying cloud-based solutions for various clients. I applied my skills in cloud services, DevOps, and database design to deliver high-quality, scalable solutions that met client requirements and expectations. Additionally, I gained valuable insights and feedback from experienced cloud architects and engineers who mentored me throughout the process.

Alongside this, I completed a Data Analyst internship at Systems Limited, where I developed my analytical and problem-solving skills by working with large datasets, performing data cleaning, visualization, and reporting. This experience helped me understand how data can drive decision-making and improve business strategies.

Currently, I am pursuing my Software Engineering degree at the National University of Computer and Emerging Sciences (NUCES). I am passionate about cloud computing and data analytics, eager to explore their applications across industries. My goal is to leverage these skills to drive business transformation and innovation in the IT industry.

Experience

FAST-NUCES, Islamabad Campus
Data Structures Lab Demonstrator
August 2024 - Present (3 months)

Systems Limited
Data Analytics Intern
July 2024 - August 2024 (2 months)

FAST-NUCES, Islamabad Campus

8 months

Data Structures Lab Demonstrator

January 2024 - April 2024 (4 months)

Islāmābād, Pakistan

Served as Data Structure Lab Demonstrator for Spring-2024 semester.

Data Structures Lab Demonstrator

September 2023 - January 2024 (5 months)

Islamabad, Islāmābād, Pakistan

Served as lab demonstrator for course - Data Structures Lab .

iVolve Technologies

Cloud Architect Intern

July 2023 - September 2023 (3 months)

Karāchi, Sindh, Pakistan

Education

National University of Computer and Emerging Sciences

Bachelor's of software engineering, Software Engineering · (September 2021 - September 2025)
